EDUCATION

Union Commonwealth University

Bachelor of Science in Computer Science

Barbourville, KY

Expected May 2027

- Undergraduate studies: Aug 2024 - Present | Collegiate GPA: 4.0/4.0 | Dean's List: every completed semester
- Relevant courses: Data Structures, Algorithms, Database Programming, Software Engineering, Computer Architecture, Systems Analysis and Design, and Linear Algebra

TECHNICAL SKILLS

Programming: Python, SQL, and JavaScript; coursework experience with C++
Databases/Web: React, Firebase Authentication, Cloud Firestore, MySQL, HTML, CSS
Tools/Libraries: Git, GitHub, VS Code, pandas, scikit-learn, Matplotlib
Foundations: Data structures and algorithms, object-oriented programming, relational database design, data cleaning

PROJECTS

Gold Price Predictor

Python / pandas / scikit-learn / Matplotlib

Academic Project

2026

- Built a Random Forest regression application using 800 historical gold-price records and lagged returns, rolling averages, volatility, and calendar features.
- Used a chronological 629/158 train-test split and compared results with a persistence baseline, obtaining an MAE of \$53.72 versus \$57.15 for the baseline.

Survival Scenario Database

MySQL / SQL

Academic Project

2025

- Designed a relational database for a fictional survival scenario covering population health, food supplies, affected cities, armories, and safe locations.
- Created tables and used SQL to add, delete, retrieve, group, and clean records for scenario analysis.

CanaryChat - Real-Time Messaging Application

React / JavaScript / Vite / Firebase

Personal Project

2024

- Built a responsive messaging MVP with Google authentication, user search, and real-time conversations synchronized through Cloud Firestore.
- Added a registration-free portfolio mode with local persistence, simulated replies, connection and error states, and Firestore access rules.

Offline AI Document Assistant

Personal Project / Python / Offline RAG Architecture

In Progress

2026 - Present

- Designed an offline-first architecture for PDF, DOCX, and TXT ingestion, local chunking and embeddings, vector retrieval, and citation-grounded responses.
- Defined separate ingestion, retrieval, and response components for future deployment without external API calls or document transfer.

EXPERIENCE & LEADERSHIP

Student Dining Services Worker

Campus Dining Services, York University

Aug 2024 - May 2025

York, NE

- Prepared and served food, operated checkout, restocked supplies, and maintained clean service areas in a fast-paced campus dining environment.

Soccer Team Leadership Group Member

Union Commonwealth University

Fall 2026 - Present

Barbourville, KY

- Support teammates with questions and concerns and communicate player perspectives to the coaching staff.

ADDITIONAL INFORMATION

Spanish (native) | English (professional working proficiency; undergraduate studies completed in English)
